

# **SEDIMENTATIONDINGS**

NIKLAS THORSSON

Simon Schmidt

WS2020/2021

# INHALT

1. INTRODUCTION	5
A. MODEL . . . . .	5
B. ALGORITHM . . . . .	5
C. PARAMETERS . . . . .	5
D. EVALUATION . . . . .	5
D.1. ORDER PARAMETER . . . . .	5
D.2. SEDIMENTATION COLUMN HEIGHT . . . . .	5
2. SCALE	7
3. ASPECT RATIO	9
4. SIZE OF DOMAIN	11
5. MEDIUM	13
6. POTENTIALS	15
BIBLIOGRAPHY	17

# 1. INTRODUCTION

We mainly follow [2]

## A. MODEL

[1]

## B. ALGORITHM

## C. PARAMETERS

## D. EVALUATION

### D.1 ORDER PARAMETER

### D.2 SEDIMENTATION COLUMN HEIGHT

## 2. SCALE

### 3. ASPECT RATIO

## 4. SIZE OF DOMAIN

## 5. MEDIUM

## 6. POTENTIALS

## BIBLIOGRAPHY
